● How is Security handled?

- User badges – Everyone in the mc² community receives a virtual “badge” identifying them in the Community.
🌿 GDLs U.S. employee; 🌿 GDLs-Canada employee; 🌀 Members (aka Supplier); 🌐 Foreign National.

- Password strength requirements – For your protection, your password must meet security requirements.

● Do I need an iSupplier ID?

- You do not require a GD Land Systems iSupplier IDs to register in mc². If you already have an iSupplier ID, we recommend you register with your iSupplier ID. Benefit: All of your company's members who register with your company's iSupplier ID will automatically be added to the same company group within mc². Note: please do not use your iSupplier ID as your user name.

● How do “Private” and “Proprietary” Groups differ?

- “<Company name>”
 - Security set to “Private” – meant for public release data, to market your company to the GDLs employee base.
 - Community members can find the Group in a Search, and can see content only if a member of the Group.
 - Community members can request to be added to the Group, or they can be invited.
- “<Company name> Proprietary”
 - Security set to “Hidden” – The mc² Screening and Matching Team is automatically added to your membership. This is meant for proprietary data related to Innovative Solutions.
 - Community members can not find the Group unless they are members of the Group.
 - Community members can only be invited to “Hidden” Groups.
